SUMMARY

Full-Stack Developer with hands-on experience building scalable web application using **JavaScript, Python, React and Java**. Strong foundation in frontend and backend development, with a track record of delivering functions, user-focused functional, project. Currently pursing **B.sc in Information Technology** (Final Year), applying skills through actively working on real-life project.

EXPERIENCE

Full-Stack Developer **Remote**

Thworks *Jan 2025 – June 2025*

- Developed React Native applications from using Figma UI designs, ensuring pixel-perfect Ui and responsive layouts.
- Developed backend services and integrated REST APIs, and optimized PostgreSQL queries.
- Designed a web scraping solution to extract data, store it in PostgreSQL, and ensured optimized queries for retrieval.

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, JavaScript/TypeScript, SQL, PHP, C
Frameworks & Technologies: React.js, Node.js, Express.js, Flask, Django, Spring Boot, FastAPI, Bootstrap, Tailwind CSS, REST APIs, AJAX
Databases: MySQL, PostgreSQL, MongoDB, Firebase, Redis, SQLite, Supabase
Libraries & Tools: Redux, Axios, Mongoose, Chart.js, Pandas, NumPy, Material-UI, Selenium, BeautifulSoup, Git/GitHub, VS Code, Postman, AWS, Netlify, Vercel, Jira, npm/yarn
Other Skills: Linux, Debugging, API Integration, Testing, Deployment, Version Control Workflows, Collaboration Tools, Web Scraping

PROJECTS

Vibexx Link

Tech Stack: *Python, Flask, OpenCV, imageio-ffmpeg, Spotipy, Next.js*

Playlist generator that detects the user's mood via webcam using computer vision, then creates a Spotify playlist matching the detected vibe.

- Integrated webcam-based emotion detection with Spotify API to deliver real-time, mood-specific music playlists.
- Developed and deployed RESTful APIs in Flask for seamless interaction between the Next.js frontend and backend services.
- Integrated secure OAuth authentication for personalized Spotify playlist generation.

FormGen Link

Tech Stack: *Python, JSON Schema, React, JSX*

Python package to auto-generate React forms from JSON schemas for faster integration and prototyping

- Published the package on PyPI with clear documentation and usage examples, enabling easy adoption by developers.
- Designed modular code architecture to allow easy extension of field types, attributes, and validation logic.

EDUCATION

Somaiya Vidyavihar University **Mumbai, India**

B.Sc. in Information Technology *2023 – 2026*

* Semester 1: CGPA **8.82**
* Semester 2: CGPA **9.23**
* Semester 3: CGPA **9.33**
* Semester 4: CGPA **9.36**

Royal Junior College

Commerce **Dombivli, India**

* 12th Percentage: **76%**
